SBE®160 / SBX®175 Connectors - up to 175 Amps

SBX[®] and SBE[®] connectors can integrate up to 8 auxiliary power / signal contacts along with the two primary power circuits. SBE[®] connectors feature an IEC 60950 touch safe housing molded from a chemical resistant PBT/PC blend resin. SBX[®] are molded from a rugged PC resin and are rated IP20 per IEC 60529.

• Touch Safe Interface

Minimizes potential contact with live circuits per IEC 60950 & IEC 60529

- Up to 8 Last Mate / First Break Auxiliaries Enables intelligent power switching, CAN and interlock loop circuitry, as well as power up to 20 amps per pole
- Color-coded Mechanical Voltage Keys

Like all Multipole connectors, the SBE[®] and SBX[®] offer an easy way to identify circuits and protect against cross mating

| SBE®160 / SBX®175 ORDERING INFORMATION |

SBE®160 / SBX®175 Housings

The middle size of SBE[®], X, O style housing. SBE[®] housings are molded from a chemical resistant PBT. SBX[®] housings are molded from PC. SBE[®]160 and SBX[®]175 housings of the same Voltage Color Code can be mated (except yellow) but is not recommended as it invalidates UL approvals. SBX[®]175 housings do not meet EN1175-1 requirements for industrial trucks.

NOTE 1: See IEC 60664-1 for working voltage.

NOTE 2: Amp ratings are stated per position and based on all positions being fully loaded.

¹ Based on: 105°C rated or better cable of the largest size, Properly calibrated APP recommended tooling, and a 25°C ambient temperature. UL rating not to exceed the maximum operating temperature. CSA rating below a 30°C temperature rise.

² Limited by the thermal properties of the connector plastic housing.

³ Use APP recommended tooling only. Alternate tools may adversely affect the performance of our connectors along with UL and CSA recognition.

REACH

⁴ Voltage capability of SBE® housing is identical to SBX®, but derated to meet EN1175-1 requirements.

Powerpole® Auxiliary

Powerpole® auxiliary connectors are rated up to 30 amps 600 volts and can be used for auxiliary power, control or sensing. The auxiliary kit includes (1) each black and red Standard Powerpole® housing, (2) contacts, (2) zip cable straps, and (2) retaining pins. (1) Retaining clip can be Substituted for (2) retaining pins.

1x4 Auxiliary Connector

The unique 1x4 auxiliary connector allows up to 4 auxiliary circuits up to 20 amps 150 volts each in SBE[®], SBO[®], & SBX[®] housings. The genderless design holds two each of the gold plated pin & socket contacts. This innovation allows the very durable and cost effective design of SBE[®], O, X connectors to substitute for DIN 43589-1 applications where 4 auxiliary contacts are required. Multiple pin lengths allow the further benefit of sequencing between circuits. (2) Retaining pins or (1) Retaining clip is required to hold the auxiliary housing in place. Auxiliary Kits include (1) Auxiliary Housing, (2) Standard Length Pin Contacts, (2) Socket Contacts, (2) Retaining Pins and (1) Retaining Clip.

PPMX Auxiliary Connector

The PPMX auxiliary connector allows up to 8 auxiliary circuits to be used in the SBE®, SBO®, & SBX® housings. There are 4 auxiliary circuits per PPMX connector and two PPMX housings fit into the auxiliary port in the main connector housing. Rated up to 7 amps 300 volts per contact, the genderless design holds two each gold plated pin & Socket contacts. This innovation allows the very durable and cost effective design of SBE®, O, X connectors to be used for applications requiring up to 8 battery monitoring or equipment vehicle communication circuits. (2) Retaining pins or (1) Retaining clip is required to hold the auxiliary housing in place.

Auxiliary Kits includes: (1) Auxiliary Housing, (2) Pin Contacts, and (2) Socket Contacts.
